Wolfeboro

NEW HAMPSHIRE

FROM THE COLLECTION OF MR. RICHARD C. LIBBY

Annual Reports

**OF THE TOWN OFFICERS
FOR THE FISCAL YEAR ENDING DEC.31,1972
VITAL STATISTICS FOR 1972**

Wolfeboro Station was a busy terminal in 1885. An Eastern R.R. Train has arrived, and stages for Melvin and Moultonboro are loading at the platform.

THE WOLFEBOROUGH RAILROAD'S FIRST 100 YEARS

For 100 years, Wolfeboro has been served by a railroad. Today's generation can not begin to understand the importance of that fact to the development of this town and the surrounding area.

From the moment of the Wolfeborough Railroad's first train in August of 1872, the 12 mile route to Sanbornville was busy hauling freight and passengers. As many as five round-trip passenger trains a day carried thousands of people hither and yon, and a daily freight train (and sometimes two) brought produce and goods to the area and carried out carloads of lumber, merchandise, and even ice for Boston's iceboxes. Local youngsters rode the trains to school, and eight stations along the track served the daily shopping, church going, and commuting needs of the local citizenry.

Most important, when the lakes thawed and summer heat gripped the cities, the existence of the railroad enabled great throngs of vacationers to visit the lakes. The trains came by the hundreds, and whole families, loaded with luggage and high expectations, piled off the steam-cars, to climb aboard stage-coaches waiting at the depot, headed for the hinterland, or to board the old paddle-wheel steamers "Lady of the Lake," or "Mt. Washington," which met the trains at the dock. Without the railroad, our area would never have developed as early as it did.

Time and technology have taken their toll. It has been 35 years since the last passenger train rolled into Wolfeboro, and now even the once-busy freight traffic has succumbed to the truck.

But a renaissance awaits. A group of men are actively planning an authentic historical restoration of the old Wolfeborough Railroad Co., complete with locomotives and cars as similar as possible to those of the 1870's, and reconstruction of the gingerbread gothic stations, substantially as they were originally built 100 years ago.

When these plans come to fruition, once again the wail of the steam whistle will echo thru the hills and over the lakes, and future generations will again be able to experience the thrill of old-time railroading, as the line becomes an operating museum of the age when the steam-trains were America's answer to her transportation problems.

Wood-Burners served the Railroad in the early days.

B&M Train from Boston meets the old "Mt. Washington" at Dockside Station about 1905.

ANNUAL TOWN MEETING
WOLFEBORO, NEW HAMPSHIRE

March 7, 1972

Brewster Town Hall

10:00 A. M.

Pursuant to the foregoing warrant, the Meeting was called to order at 10:00 AM by the Moderator, Robert F. Thurrell.

The Moderator read Articles 1 and 2 of the Warrant. A motion was made by Russell Chase to act on these Articles as read, and refrain from reading the remaining Articles of the Warrant until the evening meeting; motion seconded by Kenneth Morgan. Voice vote was in the affirmative and so declared by the Moderator. Balloting took place from 10:00 AM to 6 PM, at which time Thomas O'Dowd made the motion that the meeting adjourn to reconvene at Kingswood Regional High School at 7:00 PM to consider the remaining Articles contained in the Warrant. Seconded by Raymond F. Pollini, and carried.

At 7:00 PM the meeting was called to order by Robert F. Thurrell, at which time John G. Metcalf made the motion to refrain from reading the entire Warrant, but read each Article as it is acted upon; seconded. Voice vote was in the affirmative and so declared by the Moderator.

Mr. Metcalf made the motion that Article 8 be acted upon first, as it required written balloting and the polls must remain open for 2 hour period as required by law. Seconded. Voice vote was in the affirmative and so declared by the Moderator. Balloting began at 7:06 PM as announced by the Moderator.

The balloting on Article 8 To see if the Town will vote to rescind the vote passed under Article 17 of the Warrant for the 1971 Annual Town Meeting; and appropriate \$125,000. or any other sum for the construction and laying of approximately 9000 feet of water pipe from the regulator valve at the Pine Hill Cemetery to the standpipe on North Main Street as described in the 1963 report of Metcalf & Eddy, Inc. Such appropriation shall be raised by 20 year notes or bonds and to take any other action relative thereto. (This Article recommended by the Budget Committee.) resulted Yes 253 No 73.

Article 3. To see if the Town will authorize the Selectmen to sell any property taken by tax title or otherwise. Motion made by Dr. Lawrence S. Toms, seconded by Leslie Rankin to adopt Article 3 as read. Voice vote in the affirmative, and so declared by the Moderator.

Article 4. To see if the Town will authorize the Selectmen to hire a sum of money necessary to pay expenses in anticipation of taxes. Motion made by Raymond Berry and seconded to adopt Article 4 as read. Voice vote in the affirmative and so declared by the Moderator.

Article 5. To see if the Town will vote to authorize the Tax Collector to appoint a Deputy under the provisions of Section 42, Chapter 80 of the Revised Statutes of 1942 as amended by Chapter 7 of the Laws of 1945. Motion made by Gordon A. Reade, Seconded by Dr. Lawrence S. Toms to adopt Article 5 as read. Voice vote was in the affirmative and so declared by the Moderator.

Article 6. To see if the Town will approve and adopt the recommendations of the Budget Committee and raise and appropriate the various sums contained in this report and listed in the Budget. Motion made by Dr. Lawrence S. Toms to postpone action on this Article until after Article 21 has been voted upon. Voice vote was in the affirmative and so declared by the Moderator.

Article 7. To see if the Town will approve the allocation of all funds received from sale of timber cut on town owned land for the sole use of the Conservation Commission, all monies to be deposited in the Conservation Commission bank account and withdrawn only with the approval of the Board of Selectmen and a majority of the Conservation Commission. (This Article recommended by the Budget Committee.) Motion made by Emil Mang, seconded to adopt the Article as read. Voice vote was in the affirmative and so declared by the Moderator.

Article 8. Approved by ballot 253 to 73.

Article 9. To see if the Town will vote to allow the Selectmen, with approval of two thirds of the members of the Budget Committee, to establish Capital Reserve funds for the replacement of equipment for the various departments. This fund to be a transfer from surplus whenever a cash surplus of sufficient amounts exists. (This Article recommended by the Budget Committee.) A motion was made by John G. Metcalf and seconded to adopt the Article. Richard S. Clarke questioned the use of the funds, and asked about the control of spending. John McDermott made a motion to amend the article, seconded by Richard Clarke, that any disbursement of funds from the Capital Reserve Fund shall require the approval of Town meeting. Discussion followed, with Mr. McDermott withdrawing the first amendment and issuing a second amendment that any expenditures must have a $\frac{2}{3}$'s vote of the Budget Committee. Voice vote on the amendment was in the negative. Vote was then taken on Article 9. Voice vote was in the negative and so declared by the Moderator.

Article 10. To see if the Town will vote to return the following Liabilities to the General Fund; (a) Black top Carry Beach parking lot - \$835., (b) Highland Road - \$1500., and (c) Park Avenue - \$200. (This Article recommended by the Budget Committee.) A motion was made by Charles Foss, seconded by Dr. Lawrence S. Toms to adopt Article 10 as read. Voice vote was in the affirmative and so declared by the Moderator.

Article 11. To see if the Town will authorize an appropriation of \$1,574.98 to the Lakes Region Association which represents a 1/100% of the town's equalized property assessment valuation. (This Article not recommended by the Budget Committee.) Motion made by John McDermott, and seconded to adopt Article 11 as read. Voice vote was in the affirmative and so declared by the Moderator.

Article 12. To see if the Town will authorize an appropriation of \$1,500. to the Chamber of Commerce to operate the Information Booth located at the intersection of routes 28 and 109. (This Article not recommended by the Budget Committee.) Motion made by Richard Clarke, seconded by Charles Riley to adopt the article as read. Discussion followed by members of the Chamber of Commerce and resort owners. Dr. Toms, Chairman of the Budget Committee said they did not recommend the Article as they were not in favor of the entire town subsidizing commercial businesses within the town. Voice vote was in the affirmative and so declared by the moderator.

Article 13. To see if the Town will authorize the Selectmen to appoint a Study Committee to report back to the Town, with recommendations, for construction of a new Town building to be placed upon property acquired by the Town in 1971 to be utilized by the Fire and Police Departments, and the Rescue Squad. Motion made by Pearliss Copp, and seconded to adopt Article 13 as read. Voice vote was in the affirmative and so declared by the Moderator.

Article 14. To see if the Town will authorize the Selectmen to advertise for sealed bids for the sale of the Bell Shop building, located on Lehner Street, and authorize them to reject all bids and negotiate for the sale of said building, should the highest bid, in their opinion, not meet with the best interest of the Town. A motion was made by Charles E. Foss, seconded by Gordon Reade to adopt the Article. Discussion followed. Voice vote on the Article as written was in the affirmative and so declared by the Moderator.

Article 15. To see if the Town will establish a Contingency Fund of \$10,000. to meet the cost of expenses not anticipated that may arise during the year. A detailed report of all expenditures from the contingency fund shall be made by the

Selectmen and published with the Town Report. (This Article recommended by the Budget Committee.) Motion made by Henry Stevens, and seconded to adopt the Article as read. Voice vote was in the affirmative and so declared by the Moderator.

Article 16. To see if the Town will authorize the use of money received yearly from the State from the gasoline tax distribution, for use in reconstruction or improvement of existing Town roads until such time as rescinded by Town vote to the contrary. (This Article recommended by the Budget committee). Motion made by Charles Foss, and seconded to adopt the article. Voice vote was in the affirmative and so declared by the Moderator.

Article 17. To see if the Town will authorize the Selectmen to negotiate with Paul Hatch and Mobil Oil Company for land at the movie theatre site and rear of Stanard's Mobil Station for use as public Town parking areas. Said areas would be properly conditioned, tarred, and striped for maximum parking by the Town. The property tax on the land used for such parking area would be abated and payment of \$1.00 per year for rental would be made. The estimated cost to fully prepare these lots as parking areas is \$2,000. (This Article recommended by the Budget Committee.) Motion made by Mrs. John Metcalf, to adopt the Article as read. Seconded. Alan Severy made a motion to amend the Article deleting the Hatch parking lot from the Article. Discussion followed. When voice vote was taken on the amendment, it was in the negative. Voice vote was then taken on the original motion, and voice vote was in the affirmative and so declared by the Moderator.

Article 18. To take the sense of the qualified voters whether the amendments of the Constitution proposed by the 1971 session of the General Court shall be approved. The results of the balloting was 702 votes in favor and 477 against.

Article 19. To see if the Town will vote to adopt the amendment to the Wolfeboro Planning and Zoning Ordinance proposed by the Planning Board. All amendments passed. Results as follows:

Article 20. To take the sense of the qualifield voters as to when licenses are issued for public functions under RSA Chapters 105 and 286; for the Town to institute a fee to cover the cost of additional Police protection as authorized by State Statutes. This cost is currently being defrayed by Town appropriations to the Police Department. A motion was made by Richard Clarke, and seconded by Gerald Briggeman to institute a fee. Discussion followed. Voice vote on the motion was in the negative, and so declared by the Moderator.

Article 21. To see if the Town will authorize the purchase of the Sidewalk Plow for \$7,300. There will be a pro/rate rental credit of \$2,300. authorized by the Budget Committee in 1971, leaving a balance of \$5,000. to be paid by 1972 appropriation. (This Article recommended by the Budget Committee.) A motion was made by Gordon Reade to adopt the Article, seconded by Dr. Toms. Herbert VanBlarcom made a motion to amend the Article to read that the remaining \$5,000. needed to purchase the plow be paid from the capital reserve fund and not from 1972 appropriations. Voice vote on the amendment was in the affirmative. Voice vote on the Article as amended was in the affirmative and so declared by the Moderator.

Article 6 was then brought up to be acted upon. A motion was made by Dr. Toms to adopt Article 6 with amendments. Voice vote was in the affirmative and so declared by the Moderator.

Article 22. To conduct any such other business that may legally come before the meeting. The motion was made and seconded to adjourn the meeting at 9:35 pm to the Town Hall Building for the counting of ballots.

The counting of ballots ended at 1:45 AM, at which time the oath of office was administered to all those newly elected officers present, the others to receive the oath at the Town Clerk's Office.

Respectfully submitted,

RACHEL L. JONES

THE STATE OF NEW HAMPSHIRE

TOWN WARRANT

The Polls will be open from 10:00 A. M. to 6:00 P. M.

To the Inhabitants of the Town of Wolfeboro in the County of Carroll in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Brewster Memorial Town Hall Building in said Wolfeboro on Tuesday, the sixth day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

You are hereby notified to meet at Brewster Memorial Town Hall Building in said Wolfeboro on Tuesday, the 6th day of March next at ten of the clock in the forenoon to six o'clock in the afternoon at which time an adjournment will take place, and the meeting will be called to order at seven o'clock in the afternoon at the Kingswood Regional High School, to act upon the following subjects:

ARTICLE 1. To choose a Treasurer for one year, one Auditor for two years, one Selectman for three years, one Trustee of Trust Funds for three years, one Library Trustee for three years, one Police Commissioner for three years and three members of the Budget Committee for three years.

ARTICLE 2. To choose all other Town Officers and Agents.

ARTICLE 3. To see if the Town will vote to rescind the vote passed under Article 18 of the Warrant for the 1971 Annual Town Meeting; appropriate for the construction and equipping of a sewage treatment plant, \$1,500,000.00 or any other sum; determine whether such appropriation shall be raised by borrowing or otherwise; authorize the Selectmen to contract for and accept any Federal or State construction grants in connection with this project; or take any other action relative thereto. (This Article recommended by the Budget Committee)

ARTICLE 4. To see if the Town will vote to appropriate a sum of money for the construction of a Police-Fire Station Building, to determine whether such an appropriation shall be raised by borrowing or otherwise, or to take any other action relative thereto. (This Article recommended by the Budget Committee)

ARTICLE 5. To see if the Town will vote to authorize the withdrawal from the Revenue Sharing Fund for period January 1, 1972 to December 31, 1973, established under the provisions of the State and Local Assistance Act of 1972, for the use as set-offs against budgeted appropriations for the following priority purpose in the amount indicated or take any other action hereon: (This Article recommended by the Budget Committee)

APPROPRIATION	AMOUNT
Partial payment toward Police-Fire Building	\$40,029.00

ARTICLE 6. To see if the Town will vote to authorize the funds received from the sale of the Bell Shop, Lehner Street, and the sale of land known as "Brown's Pasture" through tax sale for the purpose as follows: (This Article recommended by the Budget Committee)

APPROPRIATION	AMOUNT
Partial payment toward Police-Fire Building	\$23,500.00

ARTICLE 7. To see if the Town will vote to authorize funds held by the Trustees of Trust Funds, known as the Martha A. Goodwin Funds for the following purpose: (This Article recommended by the Budget Committee)

APPROPRIATION	AMOUNT
Partial payment toward Police-Fire Building	\$96,000.00

ARTICLE 8. To see if the Town will authorize the Selectmen to sell any property taken by tax title or otherwise.

ARTICLE 9. To see if the Town will authorize the Selectmen to hire a sum of money necessary to pay expenses in anticipation of taxes.

ARTICLE 10. To see if the Town will approve and adopt the recommendations of the Budget Committee and raise and appropriate the various sums contained in this report and listed in the Budget.

ARTICLE 11. To see if the Town will approve the allocation of all funds received from sale of timber cut on Town owned land for the sole use of the Conservation Commission bank account and withdrawn only with the approval of the Board of Selectmen and a majority of the Conservation Commission. (This Article recommended by the Budget Committee)

ARTICLE 12. To see if the Town will authorize the Selectmen to advertise for sealed bids for the sale of Clay Pit located on Middleton Road, and authorize them to reject all bids and negotiate for the sale of said properties should the highest bid, in their opinion, not meet with the best interest of the Town.

ARTICLE 13. To see if the Town will establish a Contingency Fund of \$10,000.00 to meet the cost of expenses not anticipated that may arise during the year. A detailed report of all Expenditures from the Contingency Fund shall be made by the Selectmen and published with the Town Report. (This Article recommended by the Budget Committee)

ARTICLE 14. To see if the Town will vote to adopt the amendment to the Wolfeboro Planning and Zoning Ordinance proposed by the Planning Board.

ARTICLE 15. To take the sense of the qualified voters as to when licenses are issued for public functions under RSA Chapters 105 and 286; for the Town to institute a fee to cover the cost of additional Police protection as authorized by State Statutes. This cost is currently being defrayed by Town appropriations to the Police Department.

ARTICLE 16. To see if the Town will authorize the expenditure of \$11,500.00 to be transferred from the Capitol Reserve Fund for the following purchases:

- a. Reimburse the General Fund in the amount of \$5,000.00 for purchasing of the sidewalk plow. (This procedure was voted at the 1972 Town Meeting).
- b. Withdraw \$3,000.00 to be applied toward the purchase of two (2) trucks for the Highway Department.
- c. Withdraw \$3,500.00 for the purchasing of a new police cruiser for the Police Department.
(Sections a, b, and c, of this Article approved by the Budget Committee). The Funds are to be transferred from the Trustees of Trust Funds and transferred to the Town of Wolfeboro with purchases to be made by the Board of Selectmen.

ARTICLE 17. To see if the Town will vote that No Public Hearings on proposed amendments to the Town's Zoning Ordinances may be held without including a detailed statement of the proposed changes in all the legally required notices that must be published in the *Granite State News*. (This Article presented by petition.)

ARTICLE 18. To see if the Town will vote on the following: Do you favor the continuation of the Town Manager Plan as now in force in this Town? (This Article presented by petition).

ARTICLE 19. To see if the Town will vote to designate the following Town-owned secondary roads as Scenic Roads under provisions of RSA 253:17 and 18:

1. Cotton Valley Road from Frost Corner up over Cotton Mountain to the Stoneham Road.
2. Stoneham Road from Dimon Corner to the top of Cotton Mountain Road to the Brookfield Line.
3. Pleasant Valley Road from the junction of Route 28 to the Brookfield Line.

The purpose being to protect, enhance, and maintain the scenic beauty of Wolfeboro. And, further, that the Selectmen of said Wolfeboro shall, regarding such roads designated as scenic, file the appropriate request for suspension of specifications when making application to the Commissioner of Public Works and Highways for Town Road Aid funds under RSA 241:7 (I).

ARTICLE 20. To see if the Town will authorize the Board of Selectmen to appoint a Study Committee, to report back to the Town, with recommendations for adopting a Building Code, Plumbing Code and Electric Code.

ARTICLE 21. And to conduct such other business that may legally come before the meeting.

Given under our hands and seal, this Sixteenth day of February, in the year of our Lord nineteen hundred and Seventy-Three.

RAYMOND F. POLLINI
GERALD F. BRIGGEMAN
PAUL R. HATCH
Selectmen of Wolfeboro, N. H.

A true copy of Warrant—Attest:

RAYMOND F. POLLINI
GERALD F. BRIGGEMAN
PAUL R. HATCH
Selectmen of Wolfeboro, N. H.

BUDGET COMMITTEE'S REPORT

The Budget Committee has reviewed the various departmental budgets as submitted by the Police Commissioners, the Town Manager and the Board of Selectmen. Although the total prepared expenditures are in excess of three million dollars, expenditure of taxes from property assessments will decrease by \$36,000.

In general, labor budgets for all Town departments have increased by the rise in the cost of living (3.6%). The Police Department Budget reflects this increase along with the addition of a new patrolman.

The purchase of new equipment is proposed as follows:

- (1) Water & Sewer Department - Two new pickup trucks
- (2) Municipal Electric Department - New Station Wagon
- (3) Police Department - New Cruiser
- (4) Fire Department - New Chief's Car
- (5) Highway Department - Two new maintenance trucks

One new body mounted sand spreader

New Construction:

After much postponement, the 105 million dollar sewer plant is predicted to become a reality in 1973. Along newer lines, a much needed Fire-Police & Rescue Squad Building is proposed. The estimated cost of \$250,000 is offset by use of the Goodwin Fund (\$96,000), Government Revenue Sharing (\$40,000), Sale of the Bell Shop and Brown's Pasture (\$23,000) and a Bond or Serial Note for the balance (\$90,000).

An appropriation of \$18,183 is requested along with available TRA funds (\$8000) to complete the College Road project. The gas tax subsidy of \$22,000 will be used to rebuild in-town streets.

The Back Bay area request of \$10,000 will be combined with the 1972 appropriation of \$6000. These funds, along with other funds, notably a Grant of \$5000 from the Wolfeboro Rotary Club, will be matched by a Federal Grant for the completion of the Back Bay Recreation area.

A comment about the reduction of funds from property taxes is in order. The careful management of the Water & Sewer Department has resulted in a cash surplus enabling the Department to assume payment of two serial notes totaling \$11,000 heretofore paid from taxes. The Selectmen and Town Manager are to be commended for their efforts administering this Department.

The Committee has increased estimated revenues from the District Court, Interest & Dividend taxes and other categories. These estimates, along with the use of Capital Reserve funds (\$11,500) result in the approximate \$2.00 per thousand tax reduction for town purposes.

The Committee wishes to express its gratitude to the Town Manager, Guy L. Krapp, and the Board of Selectmen for their cooperation in the preparation of the 1973 Budget.

LAWRENCE S. TOMS, VMD
Chairman, Wolfeboro Budget
Committee

BUDGET OF THE TOWN OF WOLFEBORO

Appropriations and Estimates of Revenue for the Ensuing Year
January 1, 1973 to December 31, 1973.

RAYMOND F. POLLINI
Selectmen of Wolfeboro, N. H.

Budget Committee February 14, 1973

VERNON JOHNSON	DOROTHY W. GOULD
THOMAS A. O'DOWD	KENNETH R. DOUGLASS
LAWRENCE S. TOMS	EDWIN B. GOODALL, M.D.
LILLIAN O. BROOKES	

SELECTMEN'S PROGRESS REPORT

The title of this report has seldom been more meaningful then for the year 1972. Despite some die hard resistance toward our Town Manager form of Government, the efforts and cooperation of the majority can be recognized by careful review of the accomplishments achieved.

The Kingswood sidewalk was finally completed. The construction of Oakwood Road was started following receipts of easements for the utility lines, and drainage easements in those areas where the original road had not been built in the right way. The completion of this road is scheduled for the Spring of 1973.

Additional work was done on College Road to prepare for completion of that section to Frost Corner, also during 1972.

The Town instituted the program of rebuilding in-town roads and streets as voted at the 1972 Town Meeting. The Glendon Street project, following the disappointments, because of the lack of bids, was finally completed in just over three weeks by the Highway Department, assisted by some sub contractors hired on a day to day basis. Also, along these lines, the curbing of areas, determined hazardous to both vehicular and pedestrian traffic, was begun with additional areas to be curbed when funds are available.

The fire at the Town Hall in May of 1972, could have been a diaster had it not been for the efforts of several Town Departments. The Fire Department held damage to a minimum and the Police Department has never had more assistance then was shown by the Town's young population assisting in the removal of valuable records and equipment to prevent loss or damage by fire and water.

We might pause periodically during the year, giving recognition to the many loyal and dedicated persons along with volunteer compliments, members of the Rescue Squad who serve us so well and while doing so, their efforts and achievements go unheralded.

The National Water Main Cleaning Company, with the cooperation of the Water Department personnel, cleaned both lines from Beech Pond to the Chlorinator thus increasing the volume of flow, which temporarily eliminates the cost of a new line and caused the Town to save in excess of \$90,000.00. Efficient operation and planning within this Department also allowed the purchase of the required buffer zone at the site of the recommended sewage treatment plant; the purchase of equipment to be used to clean sewer lines; the starting of a program of line extensions, previously voted at other Town Meetings; and still at the end of

the year, end up with sufficient funds to allow the Budget Committee to transfer to the Water and Sewer Department, the amortization of two notes previously paid through tax revenue.

The Town Manager and a representative of the Board of Selectmen traveled to Boston on Monday, February 5, 1973 to meet with Bond Council and engineers for the proposed sewage treatment plant and returned with the necessary information to institute the program of construction, should the Town Meeting authorize us to proceed and also brought home a set of plans plus specifications as finally approved by the Water Supply and Pollution Control Commission.

On another page, you will find a more complete report on the activities of the Municipal Electric Department. The Department was forced to generate substantially more power this year. Under the direction of Mr. Erickson and the tremendous cooperation of departmental personnel, all emergencies were taken care of quickly and efficiently along with the work of installation of line extensions and the beginning of a program of updating and improving transmission facilities. The Board authorized the Municipal Electric Department to join in action before the Federal Power Commission with other small utilities, to resist the amount of increase in rates requested by Public Service Company of New Hampshire. No final determination of the outcome is available at this time, but we feel the action will save the customers of the Municipal Electric Department, money far in excess of the cost of these actions.

The committee, authorized by the 1972 Town Meeting to study and make recommendations for our new Town building to be utilized by the Fire Department, Police Department and Rescue Squad, has completed their assignment, made their report to the Budget Committee and now await action of the qualified voters upon their recommendations.

The project to transform the area known as the Back Bay, into a recreational area and playground, is progressing speedily. It is almost unbelievable the amount of time and effort that has been contributed by Mr. Roundy and the members of his Advisory Committee to get this project moving and we are extremely grateful to them and to all of the local organizations who have also willingly offered encouragement, time and financial support for this improvement. We must also give recognition to Mr. Haines and the members of the other State and Federal agencies for their assistance and cooperation.

The Capital Reserve Fund, voted at the 1971 Town Meeting, is being utilized by the Board of Selectmen for the first time this year. Upon their recommendation, the Budget Committee has in-

cluded funds from this reserve into capital budgets of Town Departments.

Many additional plans and projects to improve services rendered to the inhabitants of Wolfeboro are being prepared and will be submitted at future dates for your approval or other action, but we have found a new relationship, better communications and energetic support and cooperation with many individuals and organizations within the Town. We have been assisted, not only with ideas submitted, but also with methods of carrying out proposals and recommendations.

RAYMOND F. POLLINI,
Chairman

GERALD F. BRIGGEMAN
PAUL R. HATCH
Board of Selectmen

REPORT OF HEALTH OFFICER

1972

The year of 1972 was an average year with respect to the number and character of the various illnesses and health situations. There were fewer cases of children's contagious diseases such as measles, mumps, chicken pox, etc. The measles epidemic that is present in the state is not as yet evidenced in Wolfeboro and vicinity hopefully due to the number of children that have been immunized by preventive injections in infancy. Also, although we do have a few cases of influenza-like respiratory disease, we have as yet not had any definite cases of the so-called London Flu which is prevalent in Massachusetts.

Venereal disease is still more prevalent than in the past and diagnosis by culture media has helped in providing for more adequate treatment.

Pollution and Ecology, which were in everybody's mind and on everyone's tongue during the past few years, are receiving less attention perhaps but it should be emphasized that they should not be relegated to the background but should be the concern of every one of us at all times.

The Modernization program of Huggins Hospital was completed this past year and the hospital has had a definite increase in the number of patients, not only in the summer months, but the increased patient load is present even at this time.

As always, discussion of the health situation in Wolfeboro would not be complete without voicing appreciation to our Public Nursing personnel, to our Ambulance Service, to our Rescue Squad, and to our Carroll County Mental Health Services.

Respectfully submitted,

JAMES E. BOVAIRD, M. D.

Health Officer

WOLFEBORO HIGHWAY DEPARTMENT

Report of Wolfeboro Highway Department 1972

Summarizing the activities of the Highway Department for 1972, the following roads and projects were worked on:

College Road, a section of road that is being constructed in conjunction with the State of New Hampshire, whereby TRA funds are used, was again started in 1972 after postponing all activities during 1971. Starting at the end of the proposed project, and working back from Frost Corner, the trees were removed, low areas filled and sizeable cuts were made. The Town forces were again called upon to provide their services in removal of all the trees. The road, as it exists now, will be allowed to remain in this condition, for the large fill areas to settle until 1973 at which time it is hoped that sufficient money is appropriated to complete the entire section.

Maintenance of the existing roads was carried on by the Department by performing leveling and taring of the following roads:

Highland Terrace, Oak Street, Grove Street, River Street, Lower end of Lakeview Drive, Stoneham Road from Route 28 to Otis Bird's homestead. Haines Hill Road was another one that required changing of culverts, cleaning of ditches and preparing for resurfacing in 1973.

Grass and brush cutting was performed on Waumbec Road, Keewaydin Road, Lang Pond Road, Port Wedeln Road, Highland Terrace, Forest Road, Lakeview Drive, Webster Road, Sewall Road, Bay Street and King Street. In this area of work, there remains considerable work to be done in 1973.

In addition to the normal duties of the Highway Department, the personnel of this department, as well as those of the Water Department, provided the backbone of labor and equipment for the reconstruction of Glendon Street. Without the aid of personnel from the Water Department, additional cost to hire extra help would have had to be born by the Town.

The Highway Department placed into service, during 1972, a motorized sand and salt spreader which cuts the cost of sanding and salting down to one third over the methods previously used. This sander was mounted on an army 6 x 6 truck. Upon receipt of this unit, it was placed into operation immediately and has seen considerable service during the winter.

I would like at this time, to thank all that have helped in their way and to all of the other Town Departments for the good cooperation, because without this cooperation the performance of this Department could not have been accomplished.

Respectfully submitted,
DONALD R. NASON
Highway Foreman

SUPERINTENDENT'S REPORT

WATER DEPARTMENT - 1972

Main line meter reading for 1972 was 149,343,000 gallons, which represents a decrease of 14,324,000 gallons. This is not a true figure as the meter was by-passed a number of times for overhaul and when the 8" water main was being cleaned.

The 8" and 6" main from the meter building to Beech Pond were cleaned giving us more volume of water through the pipes. 1972 was not a good year for testing the results, but our flow pressure guages showed a marked improvement. We were fortunate that there were no fires or broken water mains to put a heavy demand on the system, but such a demand would have given us a more accurate measurement of the high flow.

A 6" main was laid on Pleasant Valley Road, from the junction of Route 28 to Pollini Bros. Development. This was done to replace old 2" galvanized pipe laid in 1941 and to provide connection for the Pollini Development. One (1) new hydrant was installed to give better fire protection to people on Pleasant Valley Road.

Over hanging trees and brush was cut around Beech Pond in February so that it could be done while working on the ice.

The Department wishes to thank its customers for their efforts toward cutting down the accounts receivable and hopes to get the same fine cooperation in 1973. It is your Department and by keeping your credit good with us ,it helps us keep our credit good with our suppliers.

At present, the Department is running with a surplus of capital. This looks good, but there are so many improvements which need to be done. Replacing line valves, up-dating the hydrant system, correcting trouble spots on water mains and following the recommendations of the Metcalf and Eddy Report. By keeping your accounts current, the Department has a better basis for planning work and knows just how much it can afford to put into capital improvements, which is where any surplus should go. There are many that think the rates are high, but so are the improvements for the Department.

The Department lost one of its older employees with the death of Everett Clough. He worked for the contractor when the 8" main was dug in by hand from Bay Street to Beech Pond in 1935, and had worked off and on with the Department just completing his 12th consecutive year at the time of his death. We miss him.

The water line from the regulating valve at Pine Hill Cemetery, cross country to the tank on North Main Street, was not done this year because the line was not surveyed in time to go out for bids. The survey work has now been done and bids will be let out either in the late Winter or early Spring.

There must be more improvements made to the water system. There have been more Real Estate Developments added to the system with no major improvements being made to the original pipes. It is time to stop saying "Always room for one more," and start checking "Could this be the one that breaks the camel's back?"

SUPERINTENDENT'S REPORT

SEWER DEPARTMENT — 1972

Things are looking up for this Department. With the announcement that the Federal monies are now available, it is hoped that at long last the new Sewage Treatment Plant will progress more rapidly. The past year was no worse than ever, but no improvements were made to the existing plant, which means conditions were no better.

The roofs were shingled on the Lehner Street Lift Station and the Main Pumping Station on Mill Street. Trim was painted and cement steps rebuilt. Nearly all manholes were cleaned, concentrating on those in back lands such as South Main Street, Bay Street and other troublesome areas.

The new Flexible Power Sewer Rodder has allowed us to clean more main lines and the Department intends to set up a rodding program, hopefully to keep ahead of these lines before they plug. The most troublesome areas being lines that went to the old septic tank system which were incorporated into the present system. Over 2,000 feet was cleaned this Fall

Plugged Sewer Services	30
Plugged Sewer Mains	39
Repairs Sewer Force Main	1
Repairs Sewer Main	3
New Sewer Manholes	1
Repairs Sewer Service	2
Replace Sewer Service	2
New Sewer Connections	19

It has been asked by a number of people when lines would be extended. At present, there are no plans for any major line extensions until the new plant has been completed. The report from Camp, Dresser and McKee contains line extensions, to correct those lines on property which border the lakes or are so located that sewage from individual systems could find its way to streams or lakes. The worst areas will get attention first.

H. FRED OSGOOD
Superintendent
Sewer Department

Wolfeboro Police Department

YEAR 1972

Herewith figures received from the offices of the Federal Bureau of Investigation, which reflect changes in the crime index, January through September, 1972, as compared with the previous year.

	Murder	Rape	Robbery	Aggrav. Assault	Burglary	Auto. Theft
N/eastern states	+7%	+22%	—5%	+11%	+2%	—3%
N/central states	—2%	+11%	—2%	+11%		—4%
Southern states	+5%	+10%	+2%	+2%	+2%	—7%
Western states	+12%	+13%	—1%	+8%	+3%	—3%
Suburban areas	+10%	+21%	+11%	+15%	+5%	+1%

Once again this year, as last year, these figures show that crimes of violence are rapidly on the increase and once again the suburban areas seem to be the target for these hoodlums. We of your local police department firmly believe without vigilance and hard work on our part, that Wolfeboro could well show substantial increases in these crimes which are reported above and we prayerfully ask that the townspeople allow us to do a good job by furnishing us with the necessary tools with which to work, namely men, material and a realistic budget.

We point with some pride to our activities for the year 1972 and found elsewhere in this report. It should be noted that again this year there has been a substantial reduction in reportable motor vehicle accidents. Stricter enforcement on the highways has been one of our major functions for 1972 and it seems to have paid good dividends. Also, in another portion of this report it will be noted that there was a total of sixty eight drunken driver arrests in 1972. This is a decrease of ten in number and only one operator was a repeater over last year. We like to think that this is because of continued enforcement. We put the new Breathalyzer instrument in operation on April 21st. and took a total of ninety one tests for all departments.

It should be noted that there was an increase in number of criminal complaints for the year and by the same token an increase in the arrest column. This would indicate that with an Inspector on the staff that more time can be spent on investigations. There have been over thirty drug investigations brought to a conclusion during the past year with other investigations continuing. (A study of the Wolfeboro District Court report is in order at this time).

Six hundred and twenty two hours have been spent by the men in training. This training includes specialized schooling as well as several seminars on various subjects. It also includes

three months of school at Lincoln, N. H. a branch of St. Anselm's College and funded by the Governor's Commission on Crime and Delinquency and attended by Inspector Stevens, the subjects consisting of: Human Relations-Social Psychology-Criminal Law and Criminalistics. Inspector Stevens and Officer Pete Hayes participated in the New Hampshire Combat Pistol Championships in Dunbarton, N. H., both of them receiving high scores. All officers attended several sessions of Inter-Department training as well as all classes in Concord-Manchester and Laconia under the auspices of the New Hampshire Police Standards Training Council. (This training will be mandatory for all officers after August, 1973).

This training for 1972 also includes several F. B. I. conferences on various subjects and attended by various members of the department. There was also a vigorous program on firearms which includes care and maintenance as well as marksmanship. This is a continuing program run twice a year, spring and fall. Chief Wentworth attended various meetings throughout the year which involved town business, including ten monthly meetings of the study committee which is involved in drawing and presenting the plans for a new building to be located on South Main Street and which will house the fire department, police department and rescue squad. It is hoped that a plan will be presented to the townspeople at next town meeting in the spring of 1973.

The year 1972 has been a pleasant year, meeting old friends made since we came to Wolfeboro, seeing many new faces, experiencing a drop in the tax rate of \$4.00 per thousand in spite of added costs and rising prices, and most of all, having the pleasure of being a member of the Wolfeboro community for another year. This is indeed a great privilege and one that we all should consider more often and with greater pride.

The department wishes to thank all those who have been involved in town affairs over the past year for their help and friendship and we look forward to the year 1973 which we are sure will hold many pleasant experiences and present many challenges. We would also like to give special thanks to those who made so many donations of money, clothing and food for our Christmas Fund. Once again, it was a success because of you who aided to such an unselfish degree.

Respectfully submitted,

ARNOLD H. WENTWORTH, Chief
for the Wolfeboro Police Department

PARKS AND PLAYGROUNDS DEPARTMENT

The start of 1972 saw beautiful skiing conditions with some ice. The New Hampshire State Ski Meet was held at Abenaki Ski Area and the Kingswood High School boys ski team won the State Championship for the second time in a row and moved to Class A from Class B.

Many new cross country ski trails have been made through the woods around Abenaki Ski Area. The sport of cross country skiing (although not a new sport by any means) has really boomed. It seems everyone, from the very young to the very old is out going cross country on their new skis. It is a great family sport and very good exercise.

An addition was built on to the Carroll Franklin Hersey Memorial Ski Jump by the construction class from Kingswood High School. This trestle construction gives them a longer "in-run" before the jump. Now the boys are jumping between 85 and 95 feet. They have been very successful in their competition with other schools.

The motor for the rope tow finally gave up after 23 years of service, several transplants and overhauls. A new motor was purchased out of the Town Contingency Fund to replace the old one.

Two poles of the lift-line poles did not pass inspection this year. One was replaced by the Municipal Electric Department and the other was taken out completely because it was deemed unnecessary. Three sheaves had to be replaced.

In the winter of '73 we will be starting a Junior Racing Program at Abenaki for the boys and girls of Carpenter School Age. This program will be sponsored by the Abenaki Outing Club and will train the boys and girls in racing techniques and skiing.

The Back Bay Skating Rink was slow again in starting due to the rain and warm weather and the ground not being frozen.

Again this year, the Selectmen put the job of flooding and supervision of the skating rink out for bids and Mr. Alexander McKenzie got the approval. It is hoped that by next year the base for making a skating rink will be completed before cold weather sets in. This is included in the plans for the Back Bay Project for the new playground.

The plans to develop the Back Bay area into a fine playground didn't quite get off the ground in 1972, but at the time of writing this report it looks as if it is going to make a good start in the Summer of 1973. Let's hope so. The playground plans call for a Little League Ball Field, Hockey Rink and Skating Rink, 2 Basketball Courts, and equipped play areas for small children.

The '72 Summer swimming lessons program was a success as usual. There were over 300 children participating in the American Red Cross Swimming Program.

The 6 parks were cared for in the usual manner of mowing and clipping. The new lights were installed in Cate Park, similar in style and design as the antique lamp posts that are in the new Town Park. Mr. Philip Sidney Smith was kind enough to obtain these for the Town.

The Tennis Program was again a tremendous success. 107 boys and girls, between the ages of 10 and 18 participated. I taught classes from 1:00 - 4:00 P. M. each day from Monday through Friday. The Town paid \$250.00 for the rent of the Courts from Brewster Academy from July 10th to August 27th. We were able to take about 50 boys and girls to the Tennis Tournaments at the Longwood Cricket Club in Brookline, Massachusetts, again this year and watched the professional tennis players in action. We also held our Wolfeboro Junior Tennis Association tournaments this year.

For the second consecutive year, I formed an adult tennis program for those over the age of 18. This program was again held in the morning from 9:00 A. M. until 12:00 noon, Monday through Friday. This was not sponsored or paid for by the Parks and Playgrounds Department. However, it is much needed and appreciated and was participated in by 52 members. At the end of the season we held a tournament with the Wolfeboro Racquet Club, who won the trophy.

This year I formed 5 basketball teams, made up of boys from the 4th, 5th and 6th grades in school. We call them the Wolfeboro Youth Basketball League. The team sponsors are Hart Motor Company who sponsors "The Pistons," WASR Radio sponsors "The Warriors," Diamond International sponsors "The Lakers," Wolfeboro Oil Company sponsors "The Celtics" and the North Conway Lumber Company sponsors "The Suns."

Again, Brewster Academy has come through for us and have permitted us to use the Brewster Gymnasium free of charge on Wednesday and Thursday nights for practice and games. The sponsors of the teams are carrying the entire financial support of the program.

At this time, I want to thank, first of all, Dennis Bean for the tremendous help, time and effort he has put into this program. I want to thank all of the coaches, referees and timekeepers. And of course, a great deal of thanks goes to the sponsors. A pat on the back goes to all of the players for their fine team effort and sportsmanship.

During 1972 I attended most of the New Hampshire Parks

and Recreation Society meetings held the second Tuesday of each month at many of the Recreation Areas all over the State. These meetings are clinics and classes for the members of the Society, to keep them up to date in new ideas and changes in the field of Recreation. Also, to see how other Parks and Recreation Areas are operated and maintained.

I also participated in several Tennis Clinics which were held in Massachusetts and New Hampshire and hosted a New England Lawn Tennis Association Clinic here in Wolfeboro on the Brewster Academy tennis courts.

In October, I attended the two-day National Ski Patrol First Aid Refresher Course at Waterville Valley.

I wish to thank all of the individuals and municipal departments who have assisted me in my programs this year.

DONALD K. BROOKES,
Director of Recreation
Parks and Playgrounds Commission

Report of the Public Health Nursing Committee

FOR 1972

Another year has swiftly come to a close. It has been a very busy year for everyone. We are constantly growing under the capable hands of our Public Health Nurse, Mrs. M. Virginia Dolan, R. N. and her assistants, Mrs. Nathalie Leavitt, R. N. and Mrs. Davena DeWolf, R. N. We also have available an Occupational Therapist, Joan Decelle and a part-time Physiotherapist, Mrs. Betty Freeman, with a contract with Huggins Hospital when Mrs. Freeman is not available. We also had two part-time nurses for a short time, Mrs. Patricia Titus, R. N. and Mrs. Constance Shepherd, R. N.

The total number of visits during 1972 were 2184, a slight gain over 1971's 2040 visits.

Visits per town:	
Wolfeboro	1037
Alton	283
Tuftonboro	184
Wakefield	561
Brookfield	118
<hr/>	
2184	

In September the office of the Public Health Nurse was moved from the Black Building to Huggins Hospital.

Clinics were held monthly in Wakefield. Dr. Gerard G. Bozuwa, M. D. was in charge. They are sponsored by the Public Health Nursing Association in cooperation with the State Department of Health and the School Board of Wakefield. No clinics were held in Wolfeboro this year.

Services cover the Alton, Brookfield, Tuftonboro, Wakefield and Wolfeboro areas. No patient is refused care because of financial stress. Therefore, our drive for funds each year is very important as well as the funds voted for at the Town Meetings, since like everyone, we are feeling the pinch of economy.

The Nursing Committee wishes to thank everyone whose contribution financial or otherwise assured the success of our program.

Respectfully submitted,

BEVERLY A. WILLARD

Chairman of the Nursing Committee

Report of the Wolfeboro Youth Center, Inc.

1972

The Wolfeboro Youth Center, Inc., continues to provide a central meeting place for various local organizations such as Cooperative Kindergarten, Nursery, Boy Scouts, Girl Scouts, Red Cross, Lakes Region Hobby Craft Association and many others. There has been a definite increase in the use of the Center this year.

The Officers are: Mary Morrison, President; Vice President and Treasurer, Archie Hoyt and Carolyn Rollins, Secretary.

The use of the Youth Center can be obtained for organized groups on a cooperative basis within scheduled limitations.

The Directors would like to thank everyone who has participated in keeping the Youth Center functioning as an integral part of the community.

Respectfully submitted,
MARY MORRISON, President

CATE MEMORIAL LECTURE COMMITTEE

January - December 1972

No program was presented in 1972 because of the Humanities Series and insufficient funds. A planning meeting was held June 7, 1972, and a program will be planned for May 3, 1973.

Report of the Librarian

The Conway and Wolfeboro Libraries, with the assistance of Mr. Charles Le Casce of the State Welfare Department, initiated an Outreach Program to serve all of Carroll County. This service is given with the help of affiliated libraries and volunteers. Each week tapes of the *Granite State News and the Conway Reporter* are circulated to those who cannot read news-print. From time to time other material -- articles from *New Hampshire Profiles*, *New Hampshire Echoes*, the book *New Hampshire Town Names* -- is circulated. The program is being financed by a federal grant.

The Library has maintained these services: for the blind, talking books; for shut-ins, delivery of books to homes; for borrowers, interlibrary loans; and for fifth and sixth grade students, classes in the use of the library.

Yearly circulation of books, magazines, pamphlets and tapes was as follows. Adult fiction, 13,191. Adult non-fiction, 7,916. Children's books, 6,831. Tapes, 693. Total circulation, 28,631.

Borrowed from the Bookmobile, 1,023.

Borrowed from the State Library by mail, 129. 686 new books were added. Of these 99 were gifts.

I wish to express my appreciation of the work of the Library staff and the volunteers who have made the Outreach Program possible.

Respectfully submitted,

GLADYS H. TUTTLE, Librarian

WOLFEBORO DISTRICT COURT

LIBBY MUSEUM TRUST

Trustees of the Libby Museum
Wolfeboro, New Hampshire

Dear Sirs,

Again, as for many years, the Libby Museum received over 6,000 visitors who signed the guest book. August, with a few rainy days, produced the greatest number of visitors - 3,176. During the closed season the museum was opened for several school groups. One evening during the summer the members of the Wolfeboro Rotary Club and their wives visited the museum in a body. Some came for the first time. Other service clubs would be welcome during the summer season. Appointments are required for evening visits.

As in several previous years Mr. and Mrs. Richard W. Kilburn of New Providence, N. J., donated \$100.00 and indicated that any of their donations could be used by the trustees to help remove the old barn behind the museum which had become a fire hazard and an eyesore. Accordingly the trustees have been investigating the possibility of removing the barn and incidently providing much needed parking space.

Two new mammals were put on exhibition this year. A chipmunk "*Tamias Striatus*" donated by Mrs. Ruth Abbott of Wolfeboro and an Eastern Gray Squirrel donated by Mr. Perkins of Barnstead, N. H. who also donated his mounting work on the chipmunk. Also on exhibition is a Dominican Republic 5 Centavos coin which came from the donation box. A 1945 Mercury Dime and an Indian Head (Buffalo) nickel were donated by Mr. Melvin Seymour of Center Harbor, N. H. From Mr. Charles Q. Smith of Lake Wentworth came a piece of rock chip found when the Washington Monument was being erected in 1884. A visitor this past summer, Mr. John R. Lawrence of West Haverstraw, N. Y., sent the museum four Bank of Indonesia notes and also three Japanese (printed) invasion notes made for use during World War II in territories taken from the U. S. From Mr. John J. Kenneally of West Roxbury, Mass. came a reproduction of a (world wide) Whale (fishing) Chart produced by the National Observatory in 1851 for the benefit of whaling ships.

The Wolfeboro Garden Club workers under the supervision of Mrs. James E. Bovaird again planted the annual flowers for use in the terraced trays at the museum. The Municipal Electric Department furnished electricity for lighting the museum all year. The Wolfeboro Water Department donated water for museum use. Each day of the year the Wolfeboro Police Department checked the doors and the night lighting of the museum. Our local radio station WASR again mentioned the museum on

the air. The local newspaper *The Granite State News* carried many notes concerning events at the museum. Several local artists loaned their paintings to brighten the wall spaces. I should like to thank the Museum Volunteers: The Wolfeboro Selectmen, who are the trustees of the museum, Mr. Krapp, Mrs. Jones, Mrs. Jordan, the members of the Wolfeboro Town Departments and the local artists. Special thanks go to the individual donors who keep the museum expanding by their generosity.

Sincerely,

JACKSON H. EMERY, Director

Wolfeboro Historical Society

January 29, 1973

To the Board of Selectmen
Wolfeboro, New Hampshire

Gentlemen:

The year 1972 saw several changes in the Wolfeboro Historical Society. The illness of the Curator, Mrs. David Fetzner, caused a substitution in that department which was filled by Miss Florence Paine, assisted by Miss Johanna Booth with the able help of volunteers, Mrs. Robert Daniels, Mrs. Helen Sullivan, and Miss Joanna Browning. Our efficient president since 1965, Mrs. William B. Herbert, resigned and was replaced by Mr. Clayton Wallace.

Many people from various parts of the country availed themselves of the opportunity of visiting the Clark House, Pleasant Valley Schoolhouse, and the latest acquisition, a separate building set up and equipped as a blacksmith shop by Hollis Brodrick. The town of Wolfeboro gave permission for the building to be moved to the Clark grounds. Demonstrations of blacksmithing were given by Hollis Brodrick who learned the craft at Sturbridge Village where he previously worked for two summers.

We were visited by the "Silver Squares" from Durham, N. H. led by Mrs. Ralph Booth, and members of an antique automobile association on their way through town. Also, two third grade classes with their teachers and parents visited the Clark House and Schoolhouse from the Alton schools.

The choice of a National Bicentennial project is the restoration of the Governor John Wentworth cellar hole with a general clean-up of the grounds, drainage of the cellar hole, and the making of a small parking lot. The Superintendent of State Parks for the State of New Hampshire wished to know how many organizations supported the project for if enough people are interested the 1973 legislature might allocate funds since this land is already a State park. The secretary sent letters to thirteen organizations.

The monthly meetings from May through November have been interesting and varied. The Schoolhouse has been taxed to near capacity with the large attendance. The August meeting was held in the undercroft of the Episcopal Church to provide more room, and the November meeting at the home of Mrs. Christie Hamilton when it was too cold to use the Schoolhouse. The meetings were: May 1st, "Old Currency and Coins," Mr. Harry May, Wolfeboro; June 5th, "Harold H. Hart and the Airport Development Fund in His Memory," Mr. Clayton M. Wallace of Wolfeboro; July 10th, "The Restoration of the Wolfeboro Railroad" by Mr. Donald Hallock, Wolfeboro; August 7th, "Joseph Clark, Cabinet

Maker," a slide presentation by Mr. George Michael of Merrimack, N. H.; September 4th, "Trip to the Holy Land" by the Rev. Dr. and Mrs. John N. Feaster of Portsmouth; October 2nd, "Craftmanship in Wolfeboro History" by Mr. A. Cooper Ballentine of Wolfeboro; November 6th, "The Mystery Hill of Salem, N. H." Mr. Philip Decelle of Wolfeboro.

Respectfully submitted,

FLORENCE A. PAINE for
HELEN FETZER, Curator

Report of the Wolfeboro Permit Officer

During the Year of 1972, the Permit Officer issued a total of 183 Permits. Again the Permit Officer has been holding Office Hours at the Town Offices on Tuesday Evenings the past year and it has worked out quite well since the Planning Board and Board of Adjustment usually meet the same evening, thus giving anyone who wishes the availability of the three planning functions at the same time.

The following is the breakdown of the Permits issued and valuations of same as reported to the United States Department of Commerce.

		Estimated Construction Costs
50	Dwellings	\$1,108,180 00
36	Additions to Dwellings	166,420 00
27	Accessory Buildings	66,870 00
8	Additions to Accessory Buildings	14,540 00
13	Commercial Buildings	531,060 00
11	Additions to Commercial Buildings	183,860 00
1	Dormitory type building	6,400 00
<hr/> 146		<hr/> \$2,087,330 00
22	Sign and Use Permits	
11	Sign Permits only	
1	Use Permit only	
2	Mobile Home Permits	
1	Renewal Permit	
<hr/> 183		Total Permits Issued.

Respectively submitted,

GORDON A. READE, Permit Officer
Town of Wolfeboro, New Hampshire

Board of Adjustment Report for 1972

WOLFEBORO, N. H.

It is with sadness we report the death of two faithful members of this board during 1972: W. Fred Tuttle and Clifton S. Nichols who had retired, each of whom served unselfishly for several years.

The major function of the board is to hold hearings on appeals for Special Exceptions or Variances as they relate to the Wolfeboro Zoning Ordinance. There is a \$10 filing fee for each appeal which is turned over to the Selectmen and credited to the General Fund.

This five member board is appointed by the Selectmen. Each appointment is for five years with one member's term expiring each year.

The Board of Adjustment generally hears the appeals in the Town Hall Building on a Tuesday night, with notification of the hearing having been published in the Granite State News prior to each meeting as legally required. The public may attend and also take part in any hearing.

The Board reviewed 17 applications of which 11 were granted and 4 denied. Two cases involved conditions to be met by the applicant before a final decision would be made. In both these latter cases, the applicant did not pursue the matter further.

Guy Foss was appointed to the board to fill the unexpired term of W. Fred Tuttle.

Board of Adjustment
Wolfeboro, N. H.

Report of Conservation Commission

Your Conservation Commission has purchased and distributed, with the help of the Garden Club, 1000 autumn olive seedlings. We are encouraging people in the town to plant the trees, as they make a fine source of food for the overwintering birds.

About 85 trees were purchased and planted along Main Street from Lakeview Cemetery to Bailey's Restaurant, and on Center Street to Birch Road. The kinds of trees planted were mostly Norway maples. Also included were some sugar maple, mountain ash, and flowering crab. Two sugar maples were installed at the town dock near the Dockside Restaurant. In order to get away from road salt, sidewalk maintenance and power lines, we have been fortunate in securing the cooperation of home owners, who have allowed us to plant the trees on their property. They have graciously volunteered to look after the trees and to water them - although last summer posed no problem.

We intend to continue the street tree planting program this year, in order to replace diseased and dying trees that have to be removed.

Many of our meetings and much of our time has been invested in developing a land use map, based on a soils survey conducted and recently updated by the Soil Conservation Service. We have had valuable technical help from the SCS and the Cooperative Extension Service. This survey and map is nearly completed. We will have strong recommendation for the Planning Board and Selectmen regarding what type development should be allowed on certain land, based upon information regarding slope, soil type, drainage and sub soil conditions.

Our recommendation will be for the preservation of open space, our scenic roads, and the protection of our streams, lakes, wetlands and recreation areas for public use.

As conservation is wise use we are for planned progress.

Respectfully,

WAYNE SHIPMAN, Chairman

FRED BIERWEILER

PAUL FURNEE

HENRY STEVENSON

REPORT OF FIRE AND POLICE BUILDING STUDY COMMITTEE

Under the authority of Article 13 of the 1972 Town Warrant, granting the Board of Selectmen the right to appoint a Study Committee to make recommendations for construction of a new Town Building, to be placed upon property acquired by the Town in 1971 to be utilized by the Fire, Police and Rescue Departments, we, the undersigned, being members of that study committee, do hereby submit our report and findings to the Town of Wolfeboro at their 1973 Town Meeting.

The Committee which was appointed by the Board of Selectmen had as members; Mr Charles Riley, Mr. Donald E. Hallock, Mr. Roger Moody, Mr. Leslie C. Rankin, Mr. Lawrence S. Toms, Mr. S. Bronson Garner, Mr. Guy L. Krapp, Town Manager; Mr. Raymond F. Pollini, Selectman; Mr. Gerald F. Briggeman, Selectman; Mr. Paul F. Hatch, Selectman; Mr. Guy Foss, Fire Chief and Mr. Arnold Wentworth, Police Chief.

The first meeting of the Committee was held on May 9, 1972 in the Wolfeboro Court Room, at which time, Mr. Leslie C. Rankin was elected Chairman of the Committee. Also at this time, a preliminary floor plan was presented to the Committee. This floor plan was previously prepared by persons representing the two departments. A summary of the findings from visits to other similar facilities was also made to the Committee. As the Committee reviewed the proposed floor plans, questions were raised and answered on the size and need for the facilities and rooms. From these floor plans, the shape of the building was decided, keeping in mind the amount of room required for the apparatus that would be located in this building.

The Committee continued to meet each month through December of 1972 and even two meetings in January 1973, at which time the final estimates and plans were approved for presentation.

Shortly after the Committee was formed, Mr. Donald Hallock offered his services to draw preliminary plans, investigate the types of materials that could be used, check sources of material, present comparative costs of different types of material and prepare the final estimate and plans. This committee was able to move ahead quite rapidly with its findings through Mr. Hallock's untiring efforts.

Some of the important guidelines determined by the Committee while studying this building are as follows:

1. The building must be of colonial design so as to conform with Wolfeboro.

2. The building must be constructed of durable, maintenance free materials.
3. The building should be located on the property so as to provide the most attractive setting and enhance the area in general. Also, it must be located in such a manner so that all equipment in the building will have sufficient room for operation.
4. Floor space must be provided so as to accommodate the various departments and their needs for the next 50 years, under the present type of operation.
5. In order to conform to the many requests, the Committee is recommending that the fire siren and horn be kept at its present location and not be located in this area.

In order to fulfill some of the above guidelines, the front section was designed to appear like an office building, with the equipment storage area to the rear of the building. The front section will be constructed of brick with white trim and shutters. The rear portion of the building, where all equipment is to be stored, will be metal type building with overhead garage type doors on each side of the building for easy and assured access for all fire equipment at all times.

The Committee, after giving this project their extensive thought and research, feel that it would be a practical building for the Fire-Police and Rescue Squad to be located and housed. We, therefore, recommend this building to the residents of Wolfeboro as the type that should be constructed for the intended use .

 Re: Write up for the 1972 Town Report.

After being in operation for almost 7 years, we felt that we should annually present to the town a summation of our activities covering the previous year. I therefore take great pleasure in presenting to the public our report of the activities of the Wolfeboro Rescue Squad for the year 1972.

First I would like to acquaint you with some statistics which should enlighten numerous people. We had 35 runs for the year, and they are broken down as follows:

Type of run	Number of
Standby	9
Ambulance Assist	1
Auto Accidents	5
Fires	7
Snow Machine Accidents	3
Medical Emergencies	4
Misc.: (Falls, Drownings, etc.)	6
Total	35

The number of victims treated on these runs was 21. The total number of squad man hours involved on these calls was 406 hours.

In the area of training we logged the following statistics:

Minimum hours of training per man per month	6 hours
Individual squadman's yearly total	72 hours
Total minimum squad training total	1296 hours
Extra hours of training per man per month	4 hours
Individual squadman's yearly total	48 hours
Squad yearly total	864 hours

Emergency Medical Technician Course: (EMT)

Minimum class time was 71 hours per man, with each man averaging 85 hours for the course. With 13 members taking this course, the total number of squad time involved in this training was 1105 hours.

Total hours of training for the year 1972:

EMT Squad members grand total hours training for 1972	205
Non-EMT Squad members grand total hours training for 1972	120
Grand total hours of training for the Rescue Squad during the calendar year 1972	3265 hours

Continuing with the report, First Aid Instructors on the squad, Captains Hayes and Rines, Lieutenant's Wood and Keyes, and squadmembers Sprague, Bradley, and Brewster were responsible for training over 600 people in Emergency First Aid in various parts of the state. Along similiar lines, the officers were very active in addressing numerous organizations throughout New Hampshire about the techniques of emergency care. Squadmen also spoke to different groups in our own area about the function of the Wolfeboro Rescue Squad, and to acquaint them with the services performed by our organization.

Closer ties were established between our unit and the State Police in Moultonboro and the Sheriff's Office in Ossipee. A radio was installed in the truck on the county wide emergency net, which ties in almost all of the Rescue and Ambulance units in Carroll County. This gives us unit to unit communications capabilities with other county emergency organizations, with the Sheriff's Office acting as Dispatch Center. At present we are in the process of updating the State Police radio system in order that we may improve our communications capability even more with them.

During the year we updated the Rescue Truck to meet a new New Hampshire law governing all phases of Emergency

Care, and qualified for a license from the state. At times we serve as a backup unit for ambulance service in our area, and therefore we had to be licensed to continue in that capacity.

As many of you know, we were accepted to become part of the Public Safety Building. This will give us a great boost, as we will be able to consolidate equipment that we have stored in various areas at this time. In short, we will be able to increase our efficiency to an even greater degree than we have at the present.

During the past year many of our members attended special schools and seminars, the hours of which are not reflected in our training statistics. Valuable information was obtained at these sessions, and passed along to the various squadmen who could not attend.

In summation, I could not begin to inform everyone of all the different things that we did over the past year, or tell you about all of the projects that we under took, as time and space just simply will not allow that. I would then, like to close with the following offer. If any group would like to know more about our organization, and what it does, all they have to do is contact one of the squad officers, and a program will be scheduled. Our presentation includes: colored slides, rescue explanations and demonstrations, and a complete display of equipment.

Finally, on behalf of all the members of the Rescue Squad, may I extend our heartfelt thanks to all of the public who have supported us and have realized the worth and the necessity of our organization.

Very sincerely yours,

PETER D. HAYES, Captain

Chief Engineer's Report

To the Board of Selectmen, Town Manager and the Inhabitants of the Town of Wolfeboro:

I hereby submit my reports for the year 1972.

The Department answered a total of 87 alarms for the year which consisted of 74 Still Alarms, 10 Box Alarms and 3 Engineer calls. The Alarms consisted of 47 Structural Fires, 15 Automobile Fires, 6 Grass and Brush Fires, 3 Mutual Aid Calls, 5 Fires at the Town Dump, 6 Runs for the Fire Boat, 1 Gasoline Spill and 1 L. P. Gas leak.

In responding to the calls the Department traveled 360 miles, employed 676 man hours of labor, used 5,875 feet of $\frac{3}{4}$ " Hose, 2100 feet of $1\frac{1}{2}$ " hose, 1600 feet of $2\frac{1}{2}$ " hose, raised 260' of ladders and used 17 lbs of dry chemical.

Estimated value of the property where there was more than \$100.00 damage totaled \$534,000.00 and the estimated loss was \$29,000.00. The insurance paid for damages of \$5,139.75. One claim has not been settled.

In the Spring the fire boat was scraped, sanded and painted before being put into the water. The boat proving to be a great asset to the Town, was used considerably; not only for the rescue & fire runs but for use in cooperation with the other Town Departments. The boat is being stored in the Armory building for the Winter.

The Department moved Box 45 from the old entrance to Huggins Hospital across the road on the corner of East Clark Road and South Main Street. A new Box was put into service and is located at the Main Entrance to the Sinclair Patient Center. This Box is No. 451. The Department has purchased 10,000' of #10 hard drawn copper wire, 100' $\frac{1}{2}$ " conduit, and 1 new Fire Alarm Box. The No. 10 wire will be used for replacement of wire on North Main Street and will be installed in 1973. The new Fire Alarm Box will be located at Goose Corner and will be installed in 1973. The Department has purchased a new Tone Encoder for use with the tone alerting system. This unit has replaced one that had been in use since 1960.

In the past year the Department has replaced 500' of $2\frac{1}{2}$ " Hose, 500' $1\frac{1}{2}$ " Hose, and has purchased 1 new Scott Air Pack, 12 Helmet Shields, 3 new Turn Out Coats, and 1 K Tool, lock opener.

The members of the Department assisted the local schools and the hospital with Fire Drills, and inspected 33 oil burners and made building inspections at the request of property owners.

There were 12 members that attended the State Fire School at Fitzwilliams, New Hampshire and 7 members that attended classes at Gilford Training Center, 1 member attended the New England Chief's Meeting in New Castle, New Hampshire. Members of the Department assisted with fire drills and fire inspections of boy's summer camps.

I would like to thank the local insurance agents for their cooperation and donations to our October Fire Prevention Program, it was a great success. Also, I would like to thank the Selectmen, Town Manager, and the various Town Departments for the cooperation that we received from them.

Respectfully submitted,

GUY L. FOSS, Chief Engineer

Report of the Forest Fire Warden

In New Hampshire, forest fire control is a cooperative State-town program. The Town Forest Fire Warden, appointed by the Director, Division of Resources Development upon recommendation of the Selectmen and the State's District Forest Fire Chief is responsible for fire suppression and other related duties. The State shares equally with the town in the cost of most forest fires, except illegal and careless fires, which are charged to the responsible party. The State further provides fire detection services, prevention programs, fire training for town wardens and crews, and back up equipment for fire suppression.

By authority of the State, the Town Forest Fire Warden controls all outside burning in his town. Any person wishing to kindle a fire when the ground is not covered with snow must obtain a fire permit, free of cost, from the Town Forest Fire Warden. No permits will be issued for fires between 9:00 A. M. and 5:00 P. M. unless it is raining, except for commercial purposes.

Please be careful when using fire, remember it can be an extremely useful tool when under control but once allowed to run wild it can become a disastrous and devastating force. Only you can prevent a forest fire.

Number of fires reported and acres burned - 1972 season:

STATE	410 fires	361 acres burned
DISTRICT	36 fires	10 $\frac{1}{4}$ acres burned

HUBERT C. HARTWELL, JR.
District Chief

GUY L. FOSS
Forest Fire Warden

REPORT
OF
MUNICIPAL ELECTRIC
DEPARTMENT
WOLFEBORO
NEW HAMPSHIRE

REPORT OF THE MUNICIPAL ELECTRIC DEPARTMENT

The Department experienced its greatest rate of growth in 1972 with a 17.7% increase in sale over 1971 and almost 200% increase over 1963. The peak load of 5,800 kilowatts accrued Sunday evening December 17, at 9:00 p. m. This peak was 1,000 kilowatts over the 1971 peak. The abnormal increase in both KWH's sales, and particularly in peak loads, was not expected and consequently there were several serious outages. Temporary adjustments were made ie; installations of voltage booster; rebalancing of loads; extension of three phase primaries. Permanent improvements have been rescheduled for 1973 and when completed will reduce the outage rate and greatly improve service continuity.

Load growth in the past and no doubt in the future, is the result of a combination of one or more of the following:

Increase in the number of customers. The increase in new housing has been gradual over the past years, approximately 530 new customers over the past 10 years. Developments such as Port Wedlen, Robin Acres, Hidden Valley, Wentworth Estates, Barndoor Island and Goodwin's continue to sell lots and build homes. New developments, ie; Piping Rock and Route 28, North Wolfeboro, are being opened and the areas of East and North Wolfeboro are potentials for development. The geographic location and the natural resources make Wolfeboro most attractive for a second home or a retirement area.

Each customer uses more electricity each year. The efficiency of new appliances, and the cleanliness of electricity make housekeeping an easier chore and consequently more household appliances are used. Color television, automatic defrosters on refrigerators, self cleaning electric ovens, home workshop tools are only a few of the recent new appliances considered to be almost essential.

Electric heat has proven to be "the fuel of the future." Approximately 80% of all new construction in Wolfeboro is all electric, and each all electric home averages a use of 24,000 KWH's per year.

Weather has a direct influence on the use of electricity. A cold, wet summer results in an increased load as does a cold windy winter. A warm or hot summer with cloudless skies bring tourists in droves delighting the store and innkeepers, and of course, the demand for electricity goes up.

Capital improvements in 1973-1976 will average \$60,000.00 per year and will include the replacement of primary conductors from the substation on each of three circuits. The present conductors (No. 2 Cu) are to be replaced with 336,400 MCM alum.

conductor. It is planned to replace the open wire construction with spacer type cable. It is anticipated that the North and South Main Street circuits will be done in 1973.

To supply loadgrowth on the ends of the North Main Street and South Main Street circuits the 3 phase system will be extended and new conductor installed.

The so-called submarine cable feeding Barndoor Island must be replaced.

It is expected that lead growth will be such by 1977 that additional sub-station capacity will be required. The transmission line can be extended to the Wolfeboro Center location and 3750 KVA substation installed. This substation would be phased in with the present substation and the system so designed that the two substations would be interconnected. The cost of the substation and the extension of the transmission line is estimated at \$150,000.00.

The most important financial considerations in 1973 are the effect of the proposed rate increase by Public Service; the negotiation for a new contract for power; the design of a fair retail rate; the repayment of notes; and the increased cost of labor and materials.

Public Service has requested a rate increase of approximately 30%. The Federal Power Commission has agreed to allow the rate to be effective January 15, 1973 and provides for reimbursement if the approved rate is less than the filed rate. The consumer owned utilities in New Hampshire, ie; N. H. Electric Cooperative and the towns of Wolfeboro, New Hampton and Ashland; have joined in joint action to challenge the proposed rate increase. A prehearing conference on the proposed increase is scheduled for February 7, 1973. It may very well be May or June before the FPC makes a decision.

It is agreed that a rate increase is in order. However, an increase of 30% is obviously out of proportion. An increase of 15% would be expected and, at least from a very preliminary investigation, could be justified. The final rate approved by FPC will no doubt be the rate used upon expiration of our contract. In addition to the increase in the demand charge and the KWH charge the proposed rate includes a fuel surcharge. The proposed rate increases the demand charge from \$3.02 per KW to \$3.13 per KW and the energy rate from .50¢ per KWH to .75¢ per KWH. The new rate does not change the cost for secondary power as the cost is based on the cost of fuel to Public Service Co. of New Hampshire and the cost of fuel to Municipal Electric Department and therefore a rate adjustment is automatically built in the contract.

The present contract with Public Service Co. of New Hampshire expires October 16, 1973. Public Service Co. of New Hamp-

shire has advised that secondary power will not be available after that date and that all purchases will be at a filed rate (no doubt at the rate approved by the FPC). After October 16, 1973 Municipal Electric Department may purchase all of its requirements from Public Service Co. of New Hampshire; all requirements in excess of generating capacity or base load with peak shaving with existing generation.

The rates of the Department should be increased, to reflect the increase by the new rate of Public Service Co. of New Hampshire. Based on the actual cost for the 12 months of 1972 the average cost to customers of the Department approximately will be increased 8.92%. It is recommended that the rates of the Department include a surcharge. Such surcharge to be adjusted monthly to reflect the actual increase charged by Public Service Co. of New Hampshire. Provisions for a fuel surcharge should also be included.

The Department is charged with all the responsibilities and obligations of an electric utility and in addition the Department must make a substantial contribution to the town to off set any tax income if the town were to be served by an investor owned utility. The rates of the Department are designed to provide adequate income for the repair, maintenance, and operation of the system and for the capital improvement necessary to meet the growing loads.

During the year improvements to the distribution system amounted to approximately \$42,000.00; street lights were provided to the town at a savings of approximately 14,000.00; free service and material at a cost of \$6,000.00 were provided; the \$15,000.00 from the sale of the Bell Shop was transferred from the Department to the town and electricity to the town hall, at a value of 2,165.00, was provided at no charge. In addition \$15,690.00 was paid to the town in lieu of taxes.

The above contributions are readily subsidized by the rate payers, a common procedure among consumers owned utilities. The danger in this practice if carried too far, is that more and more is taken from the income and because of this loss the utility does not have the money to maintain and improve the system.

Of course this is not the situation for the Department but unless forewarned it could happen here.

The Department is pledged to provide dependable electric service at the lowest possible cost and to this end the employee of the Department are dedicated.

H. E. ERICKSON, Manager
Municipal Electric Department

AUDITOR'S CERTIFICATE

We have examined the accounts and balance sheets of the various Town Officers. Our examination was made in accordance with the auditing standards as required by the State Tax Commission and included such tests of the records and other supporting evidence we considered necessary. In our opinion, the statements herein present fairly the results of the operation of the Town Officers for the year 1972.

February 16, 1973

STANLEY F. SWANTON
RICHARD F. RILEY
Town Auditors, Wolfeboro, N. H.
